## SAFETY

### Driver / passenger airbags

- Driver's airbag • Front passenger's airbag • Two front seat side-impact airbags
- Full-size curtain airbags for driver and front and outer rear seat passengers

### Seating

- Height-adjustable front seat head restraints • Three height adjustable rear seat head restraints
- Anti-submarining ramps in all seats – Prevents occupants sliding underneath the lap belt during a collision

### Seatbelts

- Height adjustable front inertia-reel lap and diagonal seatbelts • Three inertia-reel lap and diagonal rear seatbelts • Front and outer rear seatbelt pretensioner system – Pretensioners tighten the seatbelt in the event of an accident limiting forward movement • Front and outer rear seatbelt force limiters – Reduces potential upper body injuries during a frontal impact • Front and rear 'seatbelt unfastened' audible warning and warning light

### Child safety

- Deactivation switch for front passenger's airbag – Permits the safe use of a child seat in the front passenger seat • ISOFIX child seat mountings incorporating top tether anchor points located on outer rear seats (does not include child seat) – Allows ISOFIX child safety seats to be securely fixed into the car. The ISOFIX mounting system reduces forward movement in an accident and makes the child seat easier to install • Child-proof locks on rear doors

### Driver / passenger safety

- Energy-absorbing steering column • Pedal release system – Reduces potential injury to the driver's legs and feet during a severe frontal impact • Laminated windscreen • Side-impact protection beams • Reinforced passenger safety cell • Deformation zones front and rear
- Burst-proof door locks and anti-jam door design

### Pedestrian safety

- Bonnet / headlight / wiper structure – Designed to reduce pedestrian head and upper body injuries
- Upper and lower bumper design – Reduces upper and lower leg injuries

### Stability

#### Electronic Stability Programme (ESP):

– Works in conjunction with the vehicle's electronic braking and engine systems to keep the car stable in many different situations. ESP monitors many different inputs to determine when the car starts to lose traction, it can then immediately respond by varying the brake pressure between up to three wheels and adjust the engine output to help correct the loss of traction and improve stability.

#### Additional ESP features:

- Traction control • Cornering brake control • Straight line stability control • Rollover mitigation • Drag torque control – Maintain stability on slippery roads when lifting off the accelerator or changing gear

### Braking

#### Anti-lock Braking System (ABS):

– Prevents the vehicle's wheels from locking up under heavy braking by momentarily reducing brake pressure at the appropriate wheel, ensuring that you can maintain control of the steering

#### Additional braking features:

– The same electronic systems used in the ABS and ESP also deliver exceptional braking performance.

- Emergency brake assist – When emergency braking is detected the vehicle automatically applies the maximum possible braking assistance • Fading brake support – Compensates for the effects of brake fade • Electronic brakeforce distribution – Automatically apportions the optimum braking force to each wheel • Adaptive brake lights – Automatically warns other road users of heavy braking • Hill start assist – Briefly maintains rear brake pressure to stop the vehicle rolling back on an incline • Hazard warning lights

### Tyre pressure

- Tyre pressure monitoring system

<b>IntelliLux LED Matrix headlights</b> <p><i>IntelliLux LED Matrix headlights work with the Driving Assistance Pack One incorporating front camera system, to provide outstanding lighting performance and enhanced safety. Each headlight features a matrix of eight individual LED lights. These lights replace the main beam function and supplement the dipped beam function. Each LED illuminates a separate part of the road ahead meaning that by automatically switching lights on and off, illumination is varied to suit traffic and road conditions.</i></p> <p><i>The IntelliLux system calculates which LED lights are activated and deactivated using additional data such as ambient light conditions, vehicle speed, steering angle and when the indicators are used. For example, when the front camera system detects an oncoming vehicle, the individual LED lights that would dazzle the oncoming driver are automatically switched off and then switched back on once the vehicle has passed. All other areas remain fully illuminated. Studies shown that the enhanced roadside illumination of IntelliLux LED Matrix headlights gives the driver an extra 1.5 seconds of reaction time at 50mph.</i></p> <ul style="list-style-type: none"> <li>• Dipped beam, main beam and dynamic lighting: 16 electronically controlled LED lights (eight per headlight)</li> <li>• Driving Assistance Pack One incorporating front camera system • Intelligent main beam control</li> <li>• Automatic headlight levelling • LED tail lights</li> </ul> <p>✓ <b>Smart headlights automatically adjust the shape of high beam</b></p> <p>✓ <b>No need to switch between high and low beam</b> ✓ <b>High beam is always glare free</b></p> <p><i>Every type of driving environment has been considered:</i></p> <p><b>Urban light:</b> <i>With street lighting and speeds up to 34mph, the system automatically enhances the dipped beam function.</i></p> <p><b>Highway light:</b> <i>The system recognises when the car is on a dual carriageway or motorway. ## TRANSMISSION

### Five-speed manual gearbox

Standard on: 1.4i (100PS)/1.0i Turbo (105PS)

### Six-speed manual gearbox

Petrol engines: 1.4i Turbo (125/150PS)/1.6i (200PS) models

Diesel engines: 1.6CDTi (110/136PS)/

1.6CDTi BiTurbo (160PS) models

### Five-speed Easytronic transmission

The five-speed Easytronic 3.0 transmission is optional on 1.0i Turbo (105PS) engines. Easytronic is a five-speed manual gearbox with no clutch pedal. In manual mode you simply push the lever forward or back to shift gears up or down, whilst in automatic mode Easytronic takes control. A new electro-hydraulic actuator operates the clutch for faster and smoother gear changes plus increased economy through computer optimised gear changes.

### Six-speed automatic transmission

#### with ActiveSelect® function

A six-speed automatic transmission is optional on 1.4i Turbo (150PS) and 1.6CDTi (136PS) models. On the road, a wide selection of shift patterns is adapted to the style and habits of the driver, anticipating when maximum acceleration or maximum efficiency is required. The electronic control will also adapt to the prevailing road conditions, reducing gear shifting when climbing or descending and using engine braking assistance during down changes. The ActiveSelect® manual mode allows the gear lever to be used like a sequential manual gearbox – you simply push the lever forward or back to change up or down the gears. The driver also benefits from a 'neutral' gear disengagement at idle, which reduces vibration and contributes to improved fuel consumption.

Gross vehicle weight is the total permissible weight of the vehicle including passengers and their luggage. The maximum roof rack loading should not exceed 75kg on all models. The maximum towing weights are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. The permitted trailer load applies up to the specified incline and up to an altitude of 1000 metres above sea level. The permissible gross train weight decreases by 10% for every 1000 metres of additional altitude. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, maximum noseweight should not exceed 75kg. Always fit Vauxhall towing attachments and accessories available from your Vauxhall Retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee. During trailer towing do not exceed a maximum speed of 60mph. This speed limit is also applicable in countries with higher permitted speeds for trailer-vehicle combinations. Pay attention to the local speed limits. For trailers with low driving stability and caravans the use of an oscillation damper is strongly recommended.

## SUSPENSION

**Front:** Independent. Lightweight MacPherson struts with gas-pressure dampers and coil springs. Anti-roll bar.

**Rear:** Lightweight compound crank rear axle with one-piece, hollow cast trailing arms. Built-in anti-roll bar. Progressive-rate double conical mini-block springs and gas-pressure dampers.

## BENEFIT IN KIND COMPANY CAR TAXATION†

The car benefit charge will be the car's list price (including VAT, options and accessories fitted, delivery to Retailer and number plates, but excluding Vehicle Excise Duty and new vehicle first registration fee) multiplied by the percentage charge for the CO<sub>2</sub> emissions band in which the car falls (see table opposite). Multiply this figure by your personal income tax rate (20% for Basic Rate, 40% for Higher Rate) to calculate your annual benefit in kind tax liability.

### Example:

<b>AstraTech Line Nav 1.6CDTi (110PS)</b>	
<b>Start/Stop ecoTEC 5-door hatchback</b>	
<b>(CO<sub>2</sub> emissions 88g/km)</b>	
<b>On-the-road RRP</b>	£19375.00
Deduct: Vehicle Excise Duty	(£100.00)
New vehicle first registration fee	(£55.00)
<b>Effective list price</b>	£19220.00
Add: Optional two-coat metallic paint	£565.00
<b>List price for tax purposes (P11D value)</b>	£19785.00
<b>Car benefit charge</b>	
2017-18 tax year (20%)	£3957.00
<b>Benefit in kind tax liability (2017-18 tax year)</b>	
Basic Rate (20%) tax payer	£791.40
Higher Rate (40%) tax payer	£1582.80

† = Please note this Price Guide provides taxation information as a guide only. Vauxhall does not provide taxation guidance. Drivers should always take professional advice on their own tax position.

# ASTRA ADDITIONAL INFORMATION

## ON-THE-ROAD PRICES

To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include VAT, number plates and delivery to Retailer of £700.00 (including £116.67 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00\*.

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

## PRICE PROTECTION

Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available. Vauxhall Motors Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

## VEHICLE EXCISE DUTY

The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO<sub>2</sub>) emissions produced by the vehicle. CO<sub>2</sub> emissions are measured in grammes (g) per kilometre (km) travelled and divided into 13 charging bands shown in the table below.

A 'first year rate' of Vehicle Excise Duty is payable on all new cars and in subsequent years the amount payable reverts to the 'standard rate'. From 1 April 2017 the breakpoints for each of these bands have been revised. Also, for vehicles with a list price over £40,000, including factory-fitted options, an additional £310 is payable for the first five years of standard rate payments.

### Vehicle Excise Duty\*

	CO <sub>2</sub> emissions (g/km)	First year rate	Standard rate
<b>Band A</b>	0	£0.00	£0.00
<b>Band B</b>	1-50	£10.00	£140.00
<b>Band C</b>	51-75	£25.00	£140.00
<b>Band D</b>	76-90	£100.00	£140.00
<b>Band E</b>	91-100	£120.00	£140.00
<b>Band F</b>	101-110	£140.00	£140.00
<b>Band G</b>	111-130	£160.00	£140.00
<b>Band H</b>	131-150	£200.00	£140.00
<b>Band I</b>	151-170	£500.00	£140.00
<b>Band J</b>	171-190	£800.00	£140.00
<b>Band K</b>	191-225	£1200.00	£140.00
<b>Band L</b>	226-255	£1700.00	£140.00
<b>Band M</b>	over 255	£2000.00	£140.00

## SAFETY

### Driver / passenger airbags

- Driver's airbag • Front passenger's airbag • Two front seat side-impact airbags
- Full-size curtain airbags for driver and front and outer rear seat passengers

### Seating

- Height-adjustable front seat head restraints • Three height adjustable rear seat head restraints
- Anti-submarining ramps in all seats – Prevents occupants sliding underneath the lap belt during a collision

### Seatbelts

- Height adjustable front inertia-reel lap and diagonal seatbelts • Three inertia-reel lap and diagonal rear seatbelts • Front and outer rear seatbelt pretensioner system – Pretensioners tighten the seatbelt in the event of an accident limiting forward movement • Front and outer rear seatbelt force limiters – Reduces potential upper body injuries during a frontal impact • Front and rear 'seatbelt unfastened' audible warning and warning light

### Child safety

- Deactivation switch for front passenger's airbag – Permits the safe use of a child seat in the front passenger seat • ISOFIX child seat mountings incorporating top tether anchor points located on outer rear seats (does not include child seat) – Allows ISOFIX child safety seats to be securely fixed into the car. The ISOFIX mounting system reduces forward movement in an accident and makes the child seat easier to install • Child-proof locks on rear doors

### Driver / passenger safety

- Energy-absorbing steering column • Pedal release system – Reduces potential injury to the driver's legs and feet during a severe frontal impact • Laminated windscreen • Side-impact protection beams • Reinforced passenger safety cell • Deformation zones front and rear
- Burst-proof door locks and anti-jam door design

### Pedestrian safety

- Bonnet / headlight / wiper structure – Designed to reduce pedestrian head and upper body injuries
- Upper and lower bumper design – Reduces upper and lower leg injuries

### Stability

#### Electronic Stability Programme (ESP):

– Works in conjunction with the vehicle's electronic braking and engine systems to keep the car stable in many different situations. ESP monitors many different inputs to determine when the car starts to lose traction, it can then immediately respond by varying the brake pressure between up to three wheels and adjust the engine output to help correct the loss of traction and improve stability.

#### Additional ESP features:

- Traction control • Cornering brake control • Straight line stability control • Rollover mitigation • Drag torque control – Maintain stability on slippery roads when lifting off the accelerator or changing gear

### Braking

#### Anti-lock Braking System (ABS):

– Prevents the vehicle's wheels from locking up under heavy braking by momentarily reducing brake pressure at the appropriate wheel, ensuring that you can maintain control of the steering

#### Additional braking features:

– The same electronic systems used in the ABS and ESP also deliver exceptional braking performance.

- Emergency brake assist – When emergency braking is detected the vehicle automatically applies the maximum possible braking assistance • Fading brake support – Compensates for the effects of brake fade • Electronic brakeforce distribution – Automatically apportions the optimum braking force to each wheel • Adaptive brake lights – Automatically warns other road users of heavy braking • Hill start assist – Briefly maintains rear brake pressure to stop the vehicle rolling back on an incline • Hazard warning lights

### Tyre pressure

- Tyre pressure monitoring system

<b>IntelliLux LED Matrix headlights</b>									
<p><i>IntelliLux LED Matrix headlights work with the Driving Assistance Pack One incorporating front camera system, to provide outstanding lighting performance and enhanced safety. Each headlight features a matrix of eight individual LED lights. These lights replace the main beam function and supplement the dipped beam function. Each LED illuminates a separate part of the road ahead meaning that by automatically switching lights on and off, illumination is varied to suit traffic and road conditions.</i></p> <p><i>The IntelliLux system calculates which LED lights are activated and deactivated using additional data such as ambient light conditions, vehicle speed, steering angle and when the indicators are used. For example, when the front camera system detects an oncoming vehicle, the individual LED lights that would dazzle the oncoming driver are automatically switched off and then switched back on once the vehicle has passed. All other areas remain fully illuminated. Studies shown that the enhanced roadside illumination of IntelliLux LED Matrix headlights gives the driver an extra 1.5 seconds of reaction time at 50mph.</i></p> <ul style="list-style-type: none"> <li>Dipped beam: halogen projector headlights</li> <li>Main beam and dynamic lighting: 16 electronically controlled LED lights (eight per headlight)</li> <li>Driving Assistance Pack One incorporating front camera system</li> <li>Intelligent main beam control</li> <li>Automatic headlight levelling</li> <li>LED tail lights</li> </ul>

## TRANSMISSION

### Five-speed manual gearbox

Standard on: 1.4i (100PS)/1.0i Turbo (105PS)

### Six-speed manual gearbox

Petrol engines: 1.4i Turbo (125/150PS)/1.6i (200PS) models

Diesel engines: 1.6CDTi (110/136PS)/1.6CDTi

BiTurbo (160PS) models

### Five-speed Easytronic transmission

The five-speed Easytronic 3.0 transmission is optional on 1.0i Turbo (105PS) engines. Easytronic is a five-speed manual gearbox with no clutch pedal. In manual mode you simply push the lever forward or back to shift gears up or down, whilst in automatic mode Easytronic takes control. A new electro-hydraulic actuator operates the clutch for faster and smoother gear changes plus increased economy through computer optimised gear changes.

### Six-speed automatic transmission with ActiveSelect® function

A six-speed automatic transmission is optional on 1.4i Turbo (150PS) and 1.6CDTi (136PS) models. On the road, a wide selection of shift patterns is adapted to the style and habits of the driver, anticipating when maximum acceleration or maximum efficiency is required. The electronic control will also adapt to the prevailing road conditions, reducing gear shifting when climbing or descending and using engine braking assistance during down changes. The ActiveSelect® manual mode allows the gear lever to be used like a sequential manual gearbox – you simply push the lever forward or back to change up or down the gears. The driver also benefits from a 'neutral' gear disengagement at idle, which reduces vibration and contributes to improved fuel consumption.

Gross vehicle weight is the total permissible weight of the vehicle including passengers and their luggage. The maximum roof rack loading should not exceed 75kg on all models. The maximum towing weights are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. The permitted trailer load applies up to the specified incline and up to an altitude of 1000 metres above sea level. The permissible gross train weight decreases by 10% for every 1000 metres of additional altitude. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, maximum noseweight should not exceed 75kg. Always fit Vauxhall towing attachments and accessories available from your Vauxhall Retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee. During trailer towing do not exceed a maximum speed of 60mph. This speed limit is also applicable in countries with higher permitted speeds for trailer-vehicle combinations. Pay attention to the local speed limits. For trailers with low driving stability and caravans the use of an oscillation damper is strongly recommended.

## SUSPENSION

**Front:** Independent. Lightweight MacPherson struts with gas-pressure dampers and coil springs. Anti-roll bar.

**Rear:** Lightweight compound crank rear axle with one-piece, hollow cast trailing arms. Built-in anti-roll bar. Progressive-rate double conical mini-block springs and gas-pressure dampers.

## BENEFIT IN KIND COMPANY CAR TAXATION†

The car benefit charge will be the car's list price (including VAT, options and accessories fitted, delivery to Retailer and number plates, but excluding Vehicle Excise Duty and new vehicle first registration fee) multiplied by the percentage charge for the CO<sub>2</sub> emissions band in which the car falls (see table opposite). Multiply this figure by your personal income tax rate (20% for Basic Rate, 40% for Higher Rate) to calculate your annual benefit in kind tax liability.

### Example:

<b>AstraTech Line 1.6CDTi (110PS)</b>	
<b>Start/Stop ecoFLEX 5-door hatchback</b> (CO <sub>2</sub> emissions 88g/km)	
<b>On-the-road RRP</b>	£19375.00
Deduct: Vehicle Excise Duty	(£100.00)
New vehicle first registration fee	(£55.00)
<b>Effective list price</b>	£19220.00
Add: Optional two-coat metallic paint	£555.00
<b>List price for tax purposes (P11D value)</b>	£19775.00
<b>Car benefit charge</b>	
2017-18 tax year (20%)	£3955.00
<b>Benefit in kind tax liability (2017-18 tax year)</b>	
Basic Rate (20%) tax payer	£791.00
Higher Rate (40%) tax payer	£1582.00

† = Please note this Price Guide provides taxation information as a guide only. Vauxhall does not provide taxation guidance. Drivers should always take professional advice on their own tax position.

\*The free 3 Day Test Drive programme is open to Company Car Drivers and excludes fuel and lubricants; congestion charges; parking and speeding fines and the £250 insurance excess (if applicable). It features a wide selection of models from the Vauxhall range (excluding all VXR models and Commercial Vehicles and subject to availability). Drivers must be aged 25 years or over, have held a full driving licence for at least a year and hold a major credit card. You will need to have your driving licence (and proof of identity (i.e. passport) where the driving licence is not a photocard licence) when your car is delivered. While every effort will be made to ensure that at least 3 days are provided for the test drive, this cannot always be guaranteed due to delivery and collection dates and timings. Available for UK Mainland only. Terms and conditions apply. \*\*Telephone lines open Monday-Friday 9.00am to 5.00pm excluding Bank Holidays. Calls may be recorded or monitored for quality and/or training purposes.

# ASTRA ADDITIONAL INFORMATION

## ON-THE-ROAD PRICES

To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include the recommended cost of number plates and delivery to a Vauxhall Retailer of £700.00 (including £116.67 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00\*.

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

## PRICE PROTECTION

Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available. Vauxhall Motors Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

## E10 FUEL

E10 fuel is cleared for use in all petrol-engined Vauxhall vehicles excluding models with the 2.2 litre direct injection petrol engine (code Z22YH) used in Vectra, Signum and Zafira models. Owners of these vehicles should continue to use regular unleaded or premium unleaded petrol.

## VEHICLE EXCISE DUTY

The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO<sub>2</sub>) emissions produced by the vehicle. CO<sub>2</sub> emissions are measured in grammes (g) per kilometre (km) travelled and divided into 13 charging bands shown in the table below.

A 'first year rate' of Vehicle Excise Duty is payable on all new cars and in subsequent years the amount payable reverts to the 'standard rate'. From 1 April 2017 the breakpoints for each of these bands have been revised. Also, for vehicles with a list price over £40,000, including factory-fitted options, an additional £310 is payable for the first five years of standard rate payments.

### Vehicle Excise Duty\*
