## SAFETY

---

### Driver / passenger airbags

- Driver's and front passenger's airbags • Front seat side-impact airbags
  - Full-size curtain airbags for driver, front seat passenger and outer rear seat passengers
- 

### Seating

- Height-adjustable front seat head restraints • Height-adjustable rear seat head restraints
  - Anti-submarining ramps in front seats
- 

### Seatbelts

- Inertia-reel lap and diagonal seatbelts for all seats • Dual seatbelt pretensioners on front seats – *These keep the pelvis better coupled to the vehicle in an impact; the pelvis and therefore the legs are allowed less forward movement, reducing the risk of hard knee contact with the fascia.*
  - Pretensioners on outer rear seatbelt retractors • Load limiters on outer rear seatbelt retractors
  - Smart seatbelt reminder for front and rear seats – *Warning lights and audible warning*
- 

### Child safety

- Deactivation switch for front passenger's front and side-impact airbags – *Permits the safe use of a child seat in the front passenger seat* • i-Size compatible child seat mountings located on front passenger's seat and outer rear seats (does not include child seat). Rear seat mountings incorporate top tether anchor points – *Allows i-Size child safety seats to be securely fixed into the car. The mounting system reduces forward movement in an accident and makes the child seat easier to install.* • Child-proof locks on rear doors
- 

### Driver / passenger safety

- Energy-absorbing steering column • Side-impact protection beams • Reinforced passenger safety cell • Deformation zones front and rear
- 

### Pedestrian safety

- Collapsible windscreen wiper system – *Designed to reduce pedestrian head injuries.*
  - Upper and lower bumper design – *Reduces upper and lower leg injuries*
- 

### Braking and stability

- Switchable Electronic Stability Programme (ESP) • Anti-lock Braking System (ABS)
  - Corner stability control • Traction control • Hill start assist • Engine drag torque control – *Improves directional stability by preventing the driven wheels from locking on slippery surfaces under the influence of engine braking.* • Hydraulic brake assist • Electronic brakeforce distribution
- 

### Tyre pressure

- Deflation detection system

<b>DRIVER ASSISTANCE</b>		SE	Tech Line Nav	Sport Nav	Elite Nav	Price (£) exc. VAT	Total (£) inc. VAT
<b>Safety Pack</b> The front camera and radar systems combine to enhance the driver assistance and safety features. <b>Driver drowsiness system:</b> The system monitors driving time and driving behaviour to help prevent accidents caused by tiredness. <b>Forward collision alert with automatic emergency braking and pedestrian detection:</b> The system operates automatically from 3mph and gives an audible warning as well as a visual warning when approaching another vehicle too quickly. If no avoiding action is taken by the driver, at speeds below 19mph the system automatically slows the vehicle to a full stop with emergency braking of 0.9g. At speeds from 19mph to 87mph it brakes automatically to reduce speed by a maximum of 31mph – to reduce speed even further the driver must brake him/herself. The operational speed range of the system depends on the detected obstacle (mobile target: from 3 to 87mph; fixed target: from 3 to 50mph; pedestrian: from 3 to 37mph). Vauxhall driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task. <b>Lane departure warning with lane assist:</b> When lane departure warning identifies an imminent lane departure without driver input, lane assist applies gentle steering corrections to keep the vehicle within its lane. The system operates from 40mph.			●	●	●		
<b>All Road Pack</b> For those drivers who regularly take their vehicle off road, this pack helps the driver cope with whatever conditions they encounter. • IntelliGrip: A choice of five selectable modes to suit the driving conditions: ESP on, ESP off, snow, mud, sand • 18-inch five-spoke alloy wheels with 225/55 R 18 mud and snow tyres		○	○	○	○	416.67	<b>500.00</b>

## START/STOP TECHNOLOGY

Grandland X's Start/Stop system, fitted as standard to all models, offers real benefits by improving fuel economy and reducing CO<sub>2</sub> emissions, particularly in town. It does this by automatically stopping the engine when you come to a standstill, and then restarting as you prepare to move off.

Before automatically stopping the engine a number of system checks are carried out to ensure that it is both safe and practical to do so. To ensure safety, the driver must depress the clutch pedal, shift in to neutral, and then release the clutch pedal. System checks carried out before Auto Stop activates include:

- Start/Stop system is not manually deactivated via the facia button
- Sufficient brake vacuum is available to prevent the car rolling down an incline
- Battery is in good condition and charged
- Outside air temperature and engine temperature are above specified minima
- Electronic climate control (where fitted) is not in maximum heating or maximum cooling mode
- Self-cleaning function of the diesel particulate filter is not active

If all of these conditions are satisfied then the vehicle will Auto Stop.

When you are ready to pull away from standstill, Auto Restart is activated by depressing the clutch pedal.

Whilst at a standstill the vehicle is continually monitored. If necessary, the engine will automatically be restarted. Conditions that would initiate an Auto Restart include:

- Low battery level
- Brake vacuum below specified minimum
- Start/Stop system is manually deactivated
- Stationary for 5.5 minutes

## WEIGHTS AND TOWING DATA kg

	Gross vehicle weight	Max. towing weights Trailer with brakes (without brakes)
1.2 (130PS) Turbo Start/Stop	1930	1350 (670)
1.2 (130PS) Turbo Start/Stop auto	1960	1100 (680)
1.6 (120PS) Turbo D Start/Stop	2000	1400 (690)
1.6 (120PS) Turbo D Start/Stop auto	2020	1200 (710)

Gross vehicle weight is the total permissible weight of the vehicle including passengers and their luggage. The maximum roof rack loading should not exceed 85kg. The maximum towing weights are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, maximum noseweight should not exceed 70kg. Always fit Vauxhall towing attachments and accessories available from your Vauxhall Retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee.

## BENEFIT IN KIND COMPANY CAR TAXATION†

The car benefit charge will be the car's list price (including VAT, options and accessories fitted, delivery to Retailer and number plates, but excluding Vehicle Excise Duty and new vehicle first registration fee) multiplied by the percentage charge for the CO<sub>2</sub> emissions band in which the car falls (see table opposite). Multiply this figure by your personal income tax rate (20% for Basic Rate, 40% for Higher Rate) to calculate your annual benefit in kind tax liability.

### Example:

# GRANDLAND X ADDITIONAL INFORMATION

## ON-THE-ROAD PRICES

To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include VAT, number plates and delivery to Retailer of £700.00 (including £116.67 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00\*.

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

## PRICE PROTECTION

Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available. Vauxhall Motors Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

## VEHICLE EXCISE DUTY

The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO<sub>2</sub>) emissions produced by the vehicle. CO<sub>2</sub> emissions are measured in grammes (g) per kilometre (km) travelled and divided into 13 charging bands shown in the table below.

A 'first year rate' of Vehicle Excise Duty is payable on all new cars and in subsequent years the amount payable reverts to the 'standard rate'. From 1 April 2017 the breakpoints for each of these bands have been revised. Also, for vehicles with a list price over £40,000, including factory-fitted options, an additional £310 is payable for the first five years of standard rate payments.

### Vehicle Excise Duty\*

	CO <sub>2</sub> emissions (g/km)	First year rate	Standard rate
Band A	0	£0.00	£0.00
Band B	1-50	£10.00	£140.00
