**Please note:** On-the-road recommended retail prices (RRP) include number plates and delivery to Retailer of £583.33 exc. VAT (£700.00 inc. VAT) and new vehicle first registration fee of £55.00 (correct at time of publication). Excludes fuel and insurance. Price has been calculated using manufacturer estimates and includes an OZEV grant of up to £6,000.00 which has been deducted from the price of the vehicle (OZEV Grant not available in the Isle of Man). The grant is a government incentive and is subject to withdrawal prior to delivery of your vehicle. Retailers may be required to carry out more than one credit check during the course of the order process. You may be required to place a deposit when placing your order with your supplying Retailer. In the event of a price change, deposit refunds will be governed by your supplying Retailer's policy and as such must be discussed with the supplying Retailer.

Gross plated weights (including axle weights) quoted on the vehicle plate are to UK plated weight specification and must never be exceeded. Unbraked towing weight 750kg – all models.

\*Minimum Mass for standard vehicles will vary according to the vehicle specification (including trim, options and accessories) with a corresponding variation in payload.

\*\*VAT reclaimable status requires a minimum 1-tonne payload for Doublecabs in accordance with HMRC guidance. Doublecabs with a payload of less than 1-tonne may be eligible for VAT reclaimable status, subject to further HMRC assessment. Customers are advised to consult their local HMRC office or visit <https://www.gov.uk/government/organisations/hm-revenue-customs> for further details in relation to VAT reclaimable status. Payload calculations should take into consideration local UK Specification and Trim Level. Ordered options may also impact payload.

For fuel economy and CO<sub>2</sub> two sets of data are provided. All engines are validated to emissions standard Euro 6D Temp (6.2) which uses the newer WLTP cycle. This cycle is intended to be a closer representation to economy achieved in the real world and is included for this transparency. NEDC figures are not from the older cycle but in fact are a derived back-correlation calculation from the WLTP test data. Some systems and protocols such as the 2020 CO<sub>2</sub> target will use this figure, and hence it is included for this, and also to enable comparison to outgoing models.

<sup>#</sup>Fuel consumption and CO<sub>2</sub> emission data are determined using the Worldwide harmonised Light vehicles Test Procedure (WLTP), and the relevant values are translated back to allow the comparability into NEDC, according to regulations R (EC) No. 715/2007, R (EU) No. 2017/1153 and R (EU) No. 2017/1151. The values do not take into account in particular use and driving conditions, equipment or options and may vary depending on the format of tyres. For more information on official fuel consumption and CO<sub>2</sub> emission values, please read the guidelines at <http://vanfueldata.dft.gov.uk/>

<sup>##</sup>Fuel consumption and CO<sub>2</sub> emission data are determined according to the WLTP test cycle. Full data relating to WLTP test cycles can be found at: [www.vauxhall.co.uk/wltp](http://www.vauxhall.co.uk/wltp)

S/S = Start/Stop.

For fuel economy and CO<sub>2</sub> two sets of data are provided. All engines are validated to emissions standard Euro 6D Temp (6.2) which uses the newer WLTP cycle. This cycle is intended to be a closer representation to economy achieved in the real world and is included for this transparency. NEDC figures are not from the older cycle but in fact are a derived back-correlation calculation from the WLTP test data. Some systems and protocols such as the 2020 CO<sub>2</sub> target will use this figure, and hence it is included for this, and also to enable comparison to outgoing models.

<sup>#</sup>Fuel consumption and CO<sub>2</sub> emission data are determined using the Worldwide harmonised Light vehicles Test Procedure (WLTP), and the relevant values are translated back to allow the comparability into NEDC, according to regulations R (EC) No. 715/2007, R (EU) No. 2017/1153 and R (EU) No. 2017/1151. The values do not take into account in particular use and driving conditions, equipment or options and may vary depending on the format of tyres. For more information on official fuel consumption and CO<sub>2</sub> emission values, please read the guidelines at <http://vanfueldata.dft.gov.uk/>

<sup>##</sup>Fuel consumption and CO<sub>2</sub> emission data are determined according to the WLTP test cycle. Full data relating to WLTP test cycles can be found at: [www.vauxhall.co.uk/wltp](http://www.vauxhall.co.uk/wltp)

<b>Driver Safety Pack</b> <ul style="list-style-type: none"> <li>• Semi-adaptive cruise control</li> <li>• Forward collision alert with Automatic emergency braking and pedestrian detection</li> <li>• 3.5-inch colour information display</li> <li>• Head-up display (Elite models only)</li> <li>– If ordered on Dynamic and Sportive models in combination with Multimedia Navi Pro, will also include head-up display.</li> </ul>	B26		○	○		●	○	●	990.00	1,188.00
<b>Airbag</b> <b>Driver and front passengers' airbag:</b> <ul style="list-style-type: none"> <li>• Front passengers' airbag with deactivation switch</li> </ul>		●	●	●	●	●	●	●		
<ul style="list-style-type: none"> <li>• Driver and front passengers' curtain and side-impact airbags, front passenger's airbag with deactivation switch</li> <li>– Standard on Doublecab models.</li> </ul>	AYO	○	○	○		○	○	○	150.00	180.00
<b>Stability</b> Electronic Stability Programme-plus (ESP-plus) with traction control – Works in conjunction with the vehicle's electronic braking and engine systems to keep the vehicle stable in many different situations. ESP monitors a variety of inputs to determine when the vehicle starts to lose traction, it can then immediately respond by varying the brake pressure between up to three wheels and adjust the engine output to help correct the loss of traction and improve stability.		●	●	●	●	●	●	●		
<b>Tyre pressure</b> <ul style="list-style-type: none"> <li>• Tyre pressure monitoring system</li> </ul>	UJO	○	○	○		○	○	○	50.00	60.00
<b>Braking</b> Four-channel Anti-lock Braking System (ABS) – Prevents the vehicle's wheels from locking up under heavy braking by momentarily reducing brake pressure at the appropriate wheel, ensuring that you can maintain control of the steering. Emergency brake assist – When emergency braking is detected the vehicle Automatically applies the maximum possible braking assistance. Electronic brakeforce distribution – Automatically apportions the optimum braking force to each wheel. Hill start assist – Briefly maintains rear brake pressure to stop the vehicle rolling back on an incline.		●	●	●	●	●	●	●

# NEW VIVARO-E FEATURES

## TRANSMISSION

	Vivaro-e Dynamic	Vivaro-e Elite
<p><b>Single-speed electronic drive selector</b></p> <p>All-electric single speed drive means there is no need for multiple gears. Instead the e-toggle enables the driver to select from the following:</p> <ul style="list-style-type: none"> <li>• Park</li> <li>• Reverse</li> <li>• Neutral</li> <li>• Drive</li> <li>• Braking – for increased regenerative braking</li> </ul>	●	●
<p><b>Drive mode selector</b></p> <p>The driver can determine the driving style through selecting one of the following modes:</p> <ul style="list-style-type: none"> <li>• Power (136PS) – increased performance for use when transporting heavier loads</li> <li>• Normal (107PS) – optimised performance for normal daily use</li> <li>• Eco – (80PS) tailored to provide the lowest energy consumption</li> </ul>	●	●

## BRAKING

<p><b>Energy recuperation</b></p> <p>The regenerative braking system works when the van is in motion, energy created by the resistance of the brakes against the drivetrain is converted into DC voltage to partially recharge the battery. The driver can also engage braking mode through the drive selector to increase the level of energy recuperation.</p>	●	●
<p><b>Single foot driving experience</b></p> <p>The system not only utilises the energy when the brakes are being used, but also engages when the vehicle is coasting, recovering more energy and enabling single foot driving as the brakes automatically engage when the throttle pedal is released.</p>	●	●

# FEATURES/OPTIONS

## MECHANICAL

	Option code	Edition	Dynamic	Sportive	Griffin Edition	Elite	Vivaro-e Dynamic	Vivaro-e Elite	Price (£) exc. VAT	Price (£) inc. VAT				
<b>Transmission</b> <b>Six-speed manual gearbox:</b> • Front-wheel drive • Transverse engine/gearbox		●	●	●	●	●								
<b>Eight-speed Automatic transmission</b> • Front-wheel drive • Transverse engine/gearbox Replacing the traditional lever, the Automatic transmission selection-mode dial/drive wheel is an innovation solution that is both elegant and intuitive. <b>By simply twisting the dial, the following modes can be selected:</b> • Park, for when the vehicle is stationary and the wheels are locked • Drive, for Automatic forward motion • Neutral, for when the vehicle is stationary, wheels are free • Reverse, for Automatic backward motion For an extra experience of dynamism, the shift paddles for Automatic transmissions are located behind the steering wheel, offering drivers an extra level of control that is highly ergonomic and intuitive. The shift paddles function in the following way: • To go up a gear, the driver must pull the right lever towards themselves • To go down a gear, the driver must pull the left lever towards themselves – Please note: only consecutive gear changes are possible.			▲	▲		▲								
<b>Steering</b> • Hydraulic power-assisted rack and pinion system • Energy absorbing steering column		●	●	●	●	●

# NEW VIVARO-E SPECIFICATIONS

## DRIVETRAIN

BATTERY ENERGY KWH	50	75
location	under load floor – no impact to loading volume	
CO <sub>2</sub> emissions	0g/km	0g/km
EV range (WLTP Combined) miles*	143	205
Maximum power PS/kW	136/100	136/100
Maximum torque Nm/lb.ft	260/192	260/192
Maximum speed mph	81	81
Acceleration 0-62mph seconds	13.1	14.3
Battery warranty	8 years 100,000 miles/70% capacity	
Service interval	Initial inspection at 12,500 miles/1 year (whichever comes sooner). Main service at 25,000 miles/2 year (whichever comes sooner)	

Please note, EV range assumes that vehicle has been pre-conditioned prior to journey. This function can be accessed either via MyVauxhall App (standard with all Vivaro-e) or by using the Multimedia Navi Pro infotainment system (standard on Elite and optional on Dynamic).

## CHARGING\*\*

Supply	AC Current		DC Current	
	Domestic 8amp	Wallbox 32amp Single-phase	Wallbox 16amp Three-phase	Rapid charge <sup>†</sup> 0-80%
	1.8kWh	7.4kWh	11.kWh <sup>††</sup>	100kWh
50kWh battery	28h	7h 30m	4h 45m	30m
75kWh battery	42h	11h 20m	7h	45m

The Vivaro-e is fitted with a 7.4kW on-board charger as standard together with a mode-3 7kW 6m charging cable. An 11kW on-board charger is available as an extra cost option.

The charging flap's Padlock LED lights up when the cable is correctly plugged in and locked and then acts as a user interface to show the charging status via coloured LED lights:

- White – welcome light that helps to light up the area, especially useful in dark conditions
- Flashing green – charging in progress
- Solid green – charging complete
- Solid blue – delayed charging toggled; changes to flashing green when charging commences
- Solid red – malfunction

The driver may also choose from two settings:

- Immediate charging (the standard setting) – starts charging as soon as the vehicle is docked for charging
- Delayed charging – this is especially useful for when cheaper electric rates are desired, e.g. charging at night. Simply enter a charging start time

The Vivaro-e is a battery electric vehicle requiring mains electricity for charging. Range data given has been determined according to WLTP test procedure methodology. The figures shown are intended for comparability purposes only and should only be compared to other cars tested to the same technical standard. The range you achieve under real world driving conditions will depend upon a number of factors, including but not limited to: the accessories fitted (pre and post registration); charging frequency; personal driving style; vehicle payload and route characteristics; variations in weather; heating/air conditioning; pre-conditioning and battery condition. For more information, contact your local Vauxhall Retailer.

\*WLTP figure includes 50% payload. Please note, EV range is achieved in 'normal' mode. 'Power' mode will decrease range and 'Eco' mode will extend range although power, torque and climate control are limited.

\*\*Provisional data.

<sup>†</sup>You can obtain 0-80% of the vehicle charge in as low as 32 minutes from a 100kW rapid charging station. Rapid charging stations are widely available across the UK at various locations and their power rating varies, typically from 50kW and sometimes up to 350kW. The charging time may vary according to the type and power of the charging station, the outside temperature at the charging point and the battery temperature.

<sup>††</sup>With optional 11kWh on-board charger.

# DIESEL ENGINES

Engine	1.5 (100PS) Turbo D Start/Stop BlueInjection	1.5 (120PS) Turbo D Start/Stop BlueInjection	2.0 (120PS) Turbo D Start/Stop BlueInjection

USB Charger – 2 front and 2 rear ports	£22	– L1	£376				
<b>PROTECTION</b>		– L2	£388				
All weather rubber front floor mats	£69	– L3	£452				
Seat covers		Polypro wheel arch protection					
– Driver seat and single passenger seat	£142	– L1/L2/L3	£98				
Splash guards (set of 2) – Front	£52						
Splash guards (set of 2) – Rear <sup>2</sup>	£55						
Rear bumper protector <sup>2</sup>	£31						

Please note: Prices shown are fully fitted and painted, where applicable and exclude VAT. Please check with your local Vauxhall Retailer for details. It is advisable to ensure your insurance policy is adequate to cover additional fitted accessories. Prices correct at time of publication.

<sup>1</sup>Additional parts may be required for fitting alarm system dependent on model. Please consult your local Vauxhall Retailer for details. <sup>2</sup>Excludes L1. <sup>3</sup>Additional fixing kit required for platform cab vehicles.

# GLOSSARY OF TERMS

## Plated weight

The maximum weight to which a vehicle or an axle may be loaded, determined either by the design of the components or by legislation. All commercial vehicles must carry a manufacturer's 'plate' showing the vehicle and axle gross 'plated weights'. It is an offence to drive a vehicle in a condition where any of these weights are exceeded.

## Minimum Mass

Minimum Mass ('Mass in running order' on Certificate of Conformity and 'Mass in Service' on V5C form) is defined according to European Type Approval and include all fluids, tools and 90% fuel load. It is minimum mass for this variant and does not consider local specification/trim or deletable options (specific to Movano). Weights are also subject to manufacturing tolerances (EU Legislation allows 5% tolerance).

## Gross Vehicle Weight (GVW)

The total permissible weight of a vehicle including payload and passengers, as shown on the manufacturer's plate.

## Gross Combination Weight (GCW)

The maximum permissible weight of a vehicle, including payload and passengers, combined with the total weight of any trailer it is towing. The maximum GCW weight limit is quoted on the vehicle plate and must not be exceeded.

## Payload

The total permissible weight that can be carried without exceeding the vehicle's plated weight. Payload do not include driver but do take into consideration specification/trim level:

Weights are also subject to manufacturing tolerances (EU Legislation allows 5% tolerance). Payload does not consider any additional options that a customer may order.

## Roof loads

- Combo roof load should not exceed 100kg including the weight of the roof rack/carrier
- Vivaro roof load should not exceed 170kg including the weight of the roof rack/carrier
- Movano roof load should not exceed 200kg (150kg on H1 models) including the weight of the roof rack/carrier. H3 are not permitted to carry roof loads

## Maximum towing weight

The maximum weight of any trailer and its load which may be towed within the limit of the vehicle's plated Gross Combination Weight (GCW). It is based on the ability of the vehicle – at full GCW – to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. It is the operator's responsibility to ensure that the trailer noseweight does not cause the rear axle plated weight of the towing vehicle to be exceeded.

**Always fit Vauxhall towing attachments and accessories available from your Vauxhall Commercial Vehicle Retailer. They are designed specifically for Vauxhall models and carry a 12-month warranty.**

## Light Duty and Heavy Duty cycles

For a Light Duty cycle (EC regulation 715/2007 with designation 'Euro 6') the emissions of the whole vehicle are evaluated whereas for Heavy Duty cycle (EC regulation 595/2009 with designation 'Euro VI') only the engine is bench tested. The requirement of which cycle is necessary is determined by the reference mass of the vehicle. In the case of Movano, reference mass calculations dictate that:

- N1 FWD and M1 FWD are approved as Light Duty
- N1 RWD, N2 RWD and M2 FWD are approved as Heavy Duty

## Conversions

With Vivaro a new conversion portal is introduced. This significantly improves the transparency and response of all communication with body-builders, and converters:

[www.converters-and-groupe-psa.com](http://www.converters-and-groupe-psa.com)

This website contains complete technical guidelines necessary to convert Vauxhall commercial vehicles – Combo (K9), Vivaro (K0) and Movano (X62). All vital and fundamental information is now located in one place:

- Conversion Guidelines
- Technical Data
- 3D CAD (coming)
- WLTP guidance
- Body shell ordering

Additionally there is a new Q&A service for technical questions, and the new conversion approval process will also be managed through this portal.

Any converter of Vauxhall product should create an account on this portal including those using IVA as approval process. In fact WLTP will make this necessary.

## Commercial Vehicle Categories

**Differences between M1/N1 and M2/N2 (Vehicles with GVW above 3500kg)**

**Category M: Passenger carriers**

**Category M1:** Vehicles designed and constructed for the carriage of passengers and comprising no more than eight seats in addition to the driver's seat.

**Category M2:** Vehicles designed and constructed for the carriage of passengers, comprising more than eight seats in addition to the driver's seat, and having a maximum mass not exceeding 5 tonnes.

**Category N: Goods vehicles**

**Category N1:** Vehicles designed and constructed for the carriage of goods and having a maximum mass not exceeding 3.5 tonnes.

**Category N2:** Vehicles designed and constructed for the carriage of goods and having a maximum mass exceeding 3.5 tonnes but not exceeding 12 tonnes.

**Specific differences, all M2/N2 require the following:**

**Speed limiter:** All M2/N2 vehicles are legally required to be speed limited. M2 to 62mph and N2 to 56mph.

# GLOSSARY OF TERMS

---

**Driver licence:** Commercial vehicles with GVW greater than 3.5 tonnes have different license requirements. For any new drivers C1 category is necessary. Under some circumstances (social purposes for a non-commercial body) it is possible to drive a minibus without a D1 entitlement (Minibus) however eligibility for this exemption should be confirmed with DVSA.

**Driver CPC:** Driver Certificate of Professional Competence mandates 35 hours of periodic training every 5 years to maintain licence (from September 2014).

**Tachograph:** It is a legal requirement to administer the activities of drivers subject to the EU or AETR drivers' hours rules, and also record the vehicle's speed, distance and time. A Smart Card is required for digital tachograph and these are available from the DVLA. The tachograph of a new vehicle must be calibrated within two weeks of first registration.

**Operator's Licence:** This may also be required to ensure that vehicles are kept safe and in good condition at all times. Specifically for M2, PSV (public service vehicle) operator's licence is required. Exemptions in some circumstances may be permitted but this should always be confirmed with DVSA.

**MOT Testing:** M2/N2 must be tested each year, and vehicle presented with a completed Certificate of Conformity (CoC). This is available from Vauxhall (regdata@gm.com) or from converter in case of second-stage conversion.

## **Conversions - WLTP**

There is a mandatory CO<sub>2</sub> target that comes into effect in 2020. There are specific targets for both cars and light commercial vehicles. With respect to LCVs, Vauxhall will be responsible for the CO<sub>2</sub> of complete converted vehicle, and defined Maxi-Pollutant Values must be respected.

These values are:

- Mass in Running Order (kg)
- Frontal Surface (m<sup>2</sup>)
- Rolling Resistance Coefficient of tyres (kg/t)
- Air Inlet Surface to cool the engine (dm<sup>2</sup>)

Conversion Guidelines; Maxi-Pollutant Values and links to CO<sub>2</sub> calculator can all be found on the converter portal at [www.converters-and-groupe-psa.com](http://www.converters-and-groupe-psa.com)

Second-stage conversions based on a Euro 6D TEMP engine cannot be registered unless they have passed the CO<sub>2</sub> calculator. If Maxi-Pollutant values are not followed, then CO<sub>2</sub> calculation will fail and converted vehicle cannot be registered. It would be necessary then to change the conversion.

# FURTHER INFORMATION

## Vauxhall on-the-road recommended retail prices (RRP)

To eliminate uncertainty about hidden costs incurred when buying a new commercial vehicle, Vauxhall publishes on-the-road prices and these are shown in the pricing tables within this price guide. The prices shown are manufacturer's recommended retail prices (RRP) unless otherwise stated, exclusive of VAT (currently at a rate of 20% which may be payable). These prices include the recommended cost of number plates, delivery to a Vauxhall Retailer of £583.33 (£700.00 including VAT), 12 months' Government Vehicle Excise Duty\* and the DVLA new vehicle first registration fee of £55.00\*.

**Please note: The RRP does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and customer.**

## Price protection for all Vauxhalls

Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new commercial vehicle, but you must take delivery as soon as the commercial vehicle is available. Vauxhall Motors Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

## In the event of an accident...

Vauxhall Accident Management helps keep you mobile following an accident. Benefits include vehicle recovery, Vauxhall-approved repairs and contacting your insurer. For more details, visit [www.vauxhall.co.uk/AccidentManagement](http://www.vauxhall.co.uk/AccidentManagement)

## Vehicle Excise Duty

The amount of Vehicle Excise Duty (road fund licence) payable on new commercial vehicles varies depending on gross vehicle weight (GVW) and European standard emissions compliance, as shown below\*.

Up to 3500kg GVW	£275.00
Over 3500kg GVW	£165.00

\*Correct at time of publication.

## Customer Care Commitment

For added peace of mind, Vauxhall has an innovative Customer Care Commitment\*\* that offers the following:

- Three-year vehicle warranty consisting of a one-year/unlimited mileage manufacturer's warranty and a second and third year manufacturer's warranty with a 60,000 miles (Combo) and 100,000 miles (Vivaro and Movano) limitation
- Vauxhall Assistance for 12 months from first registration
- Five years' body panel anti-perforation warranty

\*\*Warranty is only on vehicles sourced from Vauxhall Motors Limited. Terms and conditions apply – please see your Vauxhall Retailer for details.

## Vauxhall Assistance

Vauxhall Assistance is provided automatically with every new Vauxhall for 12 months from first registration and covers everything from accident assistance, roadside recovery and 'at home' service to flat tyres. For even more peace of mind, on Vivaro-e models the cover is extended† to 8 years or 100,000 miles, whichever comes first. Even more reason for you to stay calm and let us take care of everything should the need arise. With Vauxhall Assistance help is literally just a free†† phone call away, 24 hours a day, 365 days a year

†Terms and conditions apply. Please click here for full terms and conditions. ††Mobile phone users will be charged at their standard tariff

## Vauxhall Extended Warranty

For complete peace of mind Vauxhall offers an extended warranty that can be purchased on an annual basis following the expiry of the original new vehicle warranty. It covers most mechanical and electrical components. Terms and conditions apply, for further details please contact your local Vauxhall Retailer.

## Protecting the environment

Our products are increasingly winning environmental awards, both through the use of more recycled materials and by becoming cleaner and more efficient. For information on Vauxhall's efforts to achieve an environmentally sustainable future, including information on Design for Recycling, take-back of End-of-Life Vehicles (ELVs), and the recycling of ELVs, see [www.vauxhall.co.uk/recycling](http://www.vauxhall.co.uk/recycling)

## Van Business Centres

Keeping your van on the road. We know how important your van is to you, that's why we're geared up to minimise your downtime.

Our nationwide Van Business Centres provide fast, convenient value for money servicing, repairs and MOTs.

- All work is carried out by Vauxhall trained technicians using only genuine parts
- No appointments are required for diagnosis and we offer a 'while you wait' service

We have all the expertise required and will spare no effort to get you back in business as soon as possible.

## Vauxhall Service Plan

Vauxhall Retailers offer a great service for owners of all Vauxhall vehicles. Value for money, regular offers and free check-ups, combined with the peace of mind that comes from using Vauxhall-trained technicians and genuine parts, help keep your vehicle in peak condition at all times. Every Vauxhall Retailer supports our customer promise:

## We are Vauxhall experts

- Fully Vauxhall-trained technicians
- We use Vauxhall approved diagnostic equipment and specialist tools
- Full access to Vauxhall repair databases and technical centres

## We are transparent

- Our invoicing will clearly set out the work at the price agreed with no hidden extras

## We are never beaten on price

- We will match any written like for like service/repair quote from a local‡ competitor using genuine repair methods and parts

## We are convenient

- Flexible booking times to suit you
- 'One-stop shop' for every type of Vauxhall service
- While you wait facility on stocked tyres, batteries and exhausts
- Free courtesy vehicle or local collection with annual services and warranty work

## We are thorough

- 25 point safety check with any workshop visit
- No obligation advice on essential and non-essential work
- Free check for safety enhancements and upgrades to your vehicle and software
- Free 'Wash and Vac' with every annual service
- Free fitting of wipers and external bulbs with annual services

‡A radius of five miles/20 minutes from your Vauxhall Retailer.

## For more product information

The invoice price, including delivery to Retailer, factory-fitted options, accessories fitted by the Retailer and number plates, is subject to VAT. Some feature descriptions in this guide may refer to, and some illustrations may show, optional equipment not included in the standard delivery. The information contained in this guide was accurate at the time of publication. We reserve the right to make changes in design and equipment. Please note that Vauxhall Retailers are not the agents of Vauxhall Motors Limited and are not authorised to bind Vauxhall Motors Limited by any specific or implied undertaking or representation. It is advisable to ensure that your motor insurance policy provides adequate cover for additional fitted options and accessories. The colours in this guide are only approximate actual colours. Illustrated optional equipment is available at extra charge. Availability, technical features and equipment provided on our vehicles can vary by model. For precise information on the equipment provided on our vehicles, please contact your local Vauxhall Retailer.
